thermochimica acta

Subject index

AAS
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Activation energy
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Amino acid
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Aminoaromatic acid
Thermal decomposition of 2-(4-aminophenyl)- and 2-(2,4-diaminophenyl)malonic acids and derivatives 181
Aminophenol
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17
Atmosphere
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35

Benzidine
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17
Bias
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
Binary system
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17
Boundary
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
BTDA–DMDA
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115

Calibration
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
Calorimeter pan
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
Calorimetry
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Catalyst
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63

Ceramics
Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231
Chromium compound
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35
Coats–Redfern
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35
Comonomer
Evaluation of the comonomer distribution in ethylene copolymers using DSC fractionation 129
Composite
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115
Conductivity
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231
Contamination
Identification of a safe diazotransfer reagent 161
Co-ordination compound
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Copolymer
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147
Evaluation of the comonomer distribution in ethylene copolymers using DSC fractionation 129
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265
Coupled technique
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
Cross link
Thermal properties of insolubilized polyacetals derived from non-formaldehyde cross-linking agents 155
Crystallite
Evaluation of the comonomer distribution in ethylene copolymers using DSC fractionation 129
Crystallization
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Observation of two-stage crystallization of poly(ether ether ketone) by thermal mechanical analysis 109
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27

Decomposition
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35
Thermal decomposition of 2-(4-aminophenyl)- and 2-(2,4-diaminophenyl)malonic acids and derivatives 181
Thermal decomposition of 2-(4-nitrophenyl)- and 2-(2,4-dinitrophenyl)malonic acids and derivatives 169
Degradation
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Detonation
Identification of a safe diazotransfer reagent 161
Diazotransfer
Identification of a safe diazotransfer reagent 161
DMA
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147
Thermal characterization of shape memory polymer blends for biomedical implantations 253
DSC
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
DSC studies of new energy storage materials. Part 3. Thermal and flammability studies 193
Evaluation of the comonomer distribution in

ethylene copolymers using DSC fractionation 129
Identification of a safe diazotransfer reagent 161
Observation of two-stage crystallization of poly(ether ether ketone) by thermal mechanical analysis 109
The general utility of the *n*th order model in solid state reaction kinetics 209
Thermal characterization of shape memory polymer blends for biomedical implantations 253
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17

DTA
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35

DTG
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
The general utility of the *n*th order model in solid state reaction kinetics 209
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35
Thermal decomposition of 2-(4-aminophenyl)- and 2-(2,4-diaminophenyl)malonic acids and derivatives 181
Thermal decomposition of 2-(4-nitrophenyl)- and 2-(2,4-dinitrophenyl)malonic acids and derivatives 169

EAA
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147

Electrode
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241

EMA
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147

EMF
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265

Entropy of fusion
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17

ESM
DSC studies of new energy storage materials. Part 3. Thermal and flammability studies 193

Eutectic
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17

EVA
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147

Explosive
Identification of a safe diazotransfer reagent 161

Failure
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241

Ferrite
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101

Flammability
DSC studies of new energy storage materials. Part 3. Thermal and flammability studies 193

Geometric–probabilistic approach
A geometric–probabilistic approach to heterogeneous chemical kinetics with respect to the IKP ambiguity 79

Glyoxal
Thermal properties of insolubilized polyacetals derived from non-formaldehyde cross-linking agents 155

Heat of fusion
Thermal properties of insolubilized polyacetals derived from non-formaldehyde cross-linking agents 155
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17

Heat of ionization
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1

Heat of mixing
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Heat of neutralization
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Heat of protonation
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Heat of solution
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Heat storage
DSC studies of new energy storage materials. Part 3. Thermal and flammability studies 193
Hydrocarbon
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201

Impact velocity
Identification of a safe diazotransfer reagent 161
Interface
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Invariant point
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Inverse kinetic problem
A geometric–probabilistic approach to heterogeneous chemical kinetics with respect to the IKP ambiguity 79
Ionophore
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
IR
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
IRS
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101

Iron compound
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Isotherm
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Isothermal
Further consideration of temperature measurement and control in thermogravimetry 223
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95

Kinetics
A geometric–probabilistic approach to heterogeneous chemical kinetics with respect to the IKP ambiguity 79
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
The general utility of the *n*th order model in solid state reaction kinetics 209
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35

Lanthanon compound
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
LCL
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
Ligand
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
Light
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95

Manganese compound
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43

MDSC
Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231
Mechanism
The general utility of the *n*th order model in solid state reaction kinetics 209
Model
A geometric–probabilistic approach to heterogeneous chemical kinetics with respect to the IKP ambiguity 79
The general utility of the *n*th order model in solid state reaction kinetics 209
Mössbauer
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101

Nitroaromatic acid
Thermal decomposition of 2-(4-nitrophenyl)- and 2-(2,4-dinitrophenyl)malonic acids and derivatives 169
NMR
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Non-isothermal
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
The general utility of the *n*th order model in solid state reaction kinetics 209
Novel
Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231

Oil
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
OIT
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
Optical activity
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Oxidation
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277

PDSC
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
PEEK
Observation of two-stage crystallization of poly(ether ether ketone) by thermal mechanical analysis 109
PEG
Thermal properties of insolubilized polyacetals derived from non-formaldehyde cross-linking agents 155
pH
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265
Phase
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Phosphate
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Plunge wire electrode
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Polyacetal
Thermal properties of insolubilized polyacetals derived from non-formaldehyde cross-linking agents 155
Polyimide
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115
Polymer
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Thermal characterization of shape memory polymer blends for biomedical implantations 253
Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231
Precision
Further consideration of temperature measurement and control in thermogravimetry 223
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201

Thermal conductivity of polymers, glasses and ceramics by modulated DSC 231
Protonation
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
Proton transfer
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
PU
Thermal characterization of shape memory polymer blends for biomedical implantations 253
PVC
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265

Quality assurance
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
Quintic system
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51

Radiation
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95
Reciprocal quaternary system
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Relaxation
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147
Resorcinol
Thermochemical studies on the eutectics and addition compounds in the binary systems of benzidine with *p*-nitrophenol, *m*-aminophenol and resorcinol 17

Shape memory
Thermal characterization of shape memory polymer blends for biomedical implantations 253
Sodium ferricarboxylate
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101
Solid state
The general utility of the *n*th order model in solid state reaction kinetics 209
Stability
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115
The development of a standard method for determining oxidation induction times of hydrocarbon liquids by PDSC 201
Statistical quality control
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
Sulphate
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51

TA
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
TDDA
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Temperature
Further consideration of temperature measurement and control in thermogravimetry 223
Ternary system
Calorimetric and conductometric investigations of the systems $K_2S_2O_7$–V_2O_5 and $K_2S_2O_7$–K_2SO_4–V_2O_5 in the range 390–500°C 63
Lignes monovariantes de l'isotherme 25°C du système quaternaire réciproque H_2SO_4–H_3PO_4–K_2SO_4–K_3PO_4–H_2O 51
Tessellation
A geometric–probabilistic approach to heterogeneous chemical kinetics with respect to the IKP ambiguity 79
Testing
DSC studies of new energy storage materials. Part 3. Thermal and flammability studies 193
TG
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43
Physico-chemical studies on the thermal analysis of some sodium ferricarboxylates 101

The general utility of the *n*th order model in solid state reaction kinetics 209
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal decomposition and kinetic study of chromium(III) complexes with serine and glutamic acid ligands 35

TGA
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277
Failure analysis of clinical electrodes: degradation of the ionophore, TDDA 241
Thermal characterization of shape memory polymer blends for biomedical implantations 253
Thermal decomposition of 2-(4-aminophenyl)- and 2-(2,4-diaminophenyl)malonic acids and derivatives 181
Thermal decomposition of 2-(4-nitrophenyl)- and 2-(2,4-dinitrophenyl)malonic acids and derivatives 169
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265

Thermodynamics
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1

Thermoplastic
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115

Thin film
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95

Tin oxide
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95

TMA
Observation of two-stage crystallization of poly(ether ether ketone) by thermal mechanical analysis 109

Toughness
A new high-performance thermoplastic polyimide and its fiber-reinforced composites 115

TREF
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147
Evaluation of the comonomer distribution in ethylene copolymers using DSC fractionation 129

TSC
Thermal investigation of PVC copolymers for fixed-site proton carrier membranes 265

UCL
Controlling composition and oxidation tests of hydrocarbon and synthetic fluids in a thermal analysis laboratory 277

ULDPE
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147

VLDPE
Dynamic mechanical studies on secondary relaxations of ethylene copolymers 147

XRD
The thermal decomposition of solid state complexes of some rare earths (lanthanons) with bis-(2-ethylhexyl) phosphoric acid 27
Thermal change of SnI_2 thin films. Part 3. Isothermal change under light radiation 95

XRPD
Physico-chemical characterization and non-isothermal decomposition kinetics of a precursor (polynuclear coordination compound) of manganese ferrite 43

Zwitterion
Thermodynamics of proton transfer processes of standard α-amino acids compared with the same processes in the gaseous phase 1
